

WRGC IV

WORLD ROBOTIC GYNECOLOGY CONGRESS

March 25 - 27, 2012

NICHOLSON CENTER, ORLANDO, FL

To register visit www.WRGCUS.com or call Sheri Brammer at (407) 303-4033.

Allied Health Session | Tuesday, March 27, 2012

This session is designed for allied health personnel interested in advancing their knowledge in the role of robotics in pelvic surgery. Experienced allied health personnel and surgeons will discuss various strategies for optimizing OR efficiency in robotics cases. A mock OR will be created with a strong emphasis on audience interaction through a hands-on component.

Objectives

- Describe how to avoid peri-operative neuropathic injuries through appropriate patient positioning.
- Become familiar with an efficient way to set up OR equipment for a robotic case.
- Discuss the function of allied health personnel in robotic surgery.
- Demonstrate proper placement strategies for the patient side-cart during robotic surgery.
- Develop an overall practical approach to robotic surgery.
- Describe solutions to some of the most commonly encountered technical problems.

Faculty

Arnold P. Advincula, MD, FACOG, FACS

Scientific Chair of WRGC IV
Medical Director, Gynecologic Robotic Surgery Program, Global Robotics Institute

Center for Specialized Gynecology
Florida Hospital Celebration Health

Kristine Axelson, CST*

Florida Hospital Celebration Health

Aileen Caceres, MD, MPH, FACOG*

Center for Specialized Gynecology
Florida Hospital Celebration Health

Tiffany Jackson, MD*

Fellow, Minimally Invasive Gynecologic Surgery

Center for Specialized Gynecology
Florida Hospital Celebration Health

Regina Montero, RN, MSN, CNOR*

Gynecology, General, Urology & Robotics Coordinator

Scottsdale Healthcare
Thompson Peak Hospital

Maria Anthea Ponce, RN, BSN*

Gynecologic Robotics Coordinator
Florida Hospital Celebration Health

Abe Segui, CST*

Florida Hospital Celebration Health

Bich-Van Tran, MD*

Fellow, Minimally Invasive Gynecologic Surgery

Center for Specialized Gynecology
Florida Hospital Celebration Health

*Lab Experience Faculty

Allied Health Session Agenda

- 6:45 – 7:30 am **Registration/Continental Breakfast**
- 7:30 am **Welcome & Announcements**
Bich-Van Tran, MD
- 7:45 am **Live Telesurgery: Robotic Hysterectomy “It’s All about Uterine Manipulation”**
Arnold P. Advincula, MD & Tiffany Jackson, MD
- 9:00 am **Gynecologic Surgery 101: Knowing the Basics & Anticipating the Steps**
Bich-Van Tran, MD
- 9:45 am **Refreshment Break**
- 10:00 am **Successful Team Approach: A Surgeon’s Perspective**
Aileen Caceres, MD
- 10:30 am **OR Efficiency: A RN’s Perspective**
Regina Montero, RN
- 11:00 am **Preventing Peri-operative Neuropathies: Patient Positioning Tips & Tricks**
Tiffany Jackson, MD
- 11:30 am **Streamlining the OR Back-table: Less is Best**
Kristine Axelson, CST
- 12:00 pm **Lunch/Networking**
- 1:00 pm **Lab Experience: Robot Draping, Docking and Driving & Instruments**
Station 1: Robot Draping
Station 2: Robot Docking
Station 3: Robot Driving
Station 4: Robotic Instruments & Uterine Manipulators
Station 5: Laparoscopic Box Trainers: Improving Hand-eye Coordination, Retrieving Needles
- 3:00 pm **Troubleshooting Tips & Tricks**
Q&A: Faculty Panel
- 4:30 pm **Adjourn**

Note: Every effort will be made to adhere to the agenda; however, changes may occur.
