

WRGC IV PRE-CONGRESS COURSE DESCRIPTION

PRE-CONGRESS 1: INCORPORATING ROBOTICS FOR COMPLEX PELVIC SURGERY/LARGE UTERI/ENDOMETRIOSIS

Cost: \$399

Chairs: Michael Pitter, MD and Mona Orady, MD

Faculty: Arnold P. Advincula, MD, Antonio Gargiulo, MD, Tom Manolitsas, MD, Michelle Nisolle, MD, Peter Barton-Smith, MD, Tiffany Jackson, MD and Bich-Van Tran, MD

OBJECTIVES

- Discuss surgical strategies for the “frozen pelvis.”
- Demonstrate anatomy of the retroperitoneum (paravesical, pararectal, rectovaginal and lateral pelvic wall) in a cadaveric model.
- Identify tips and tricks for managing the large uterus and other extreme pathology.
- Review strategies that address the management of complications when encountered.

AGENDA

7:45 am - 8:00 am	Welcome and Announcements/Course Overview
8:00 am - 8:45 am	The Achilles Heel of the Gynecologist: Understanding Pelvic Anatomy Tom Manolitsas, MD
8:45 am - 9:00 am	Change to Scrubs for Cadaveric Hands-on Wet Lab
9:00 am - 11:45 am	Cadaveric Hands-on Wet Lab
11:45 am - 12:45 pm	Lunch
1:00 pm - 1:30 pm	Practical Strategies for the Retroperitoneum and Ureterolysis Arnold P. Advincula, MD
1:30 pm - 2:00 pm	Overcoming the Large Uterus Mona Orady, MD
2:00 pm - 2:30 pm	Leveraging the 4th Arm for Complex Pathology: Case Studies in Optimal Usage Michael Pitter, MD
2:30 pm - 2:45 pm	Q&A: Faculty Panel
2:45 pm - 3:00 pm	Break
3:00 pm - 3:30 pm	Incorporating Lasers in Robot-assisted Gynecologic Surgery Antonio Gargiulo, MD
3:30 pm - 4:00 pm	Dissection Techniques for Deeply Infiltrating Endometriosis Michelle Nisolle, MD
4:00 pm - 4:30 pm	Tips and Tricks for the Difficult Robotic Case Peter Barton-Smith, MD
4:30 pm - 4:45 pm	Q&A: Faculty Panel
4:45 pm - 5:00 pm	Wrap up/Evaluations/Adjourn

*Registration for pre-congress courses can be done through www.WRGCUS.com as part of the registration process for the WRGC IV Congress. The cost for a pre-congress course is additional to the cost of the congress.

WRGC IV PRE-CONGRESS COURSE DESCRIPTION

PRE-CONGRESS 2: ROBOTICS AND UROGYNECOLOGY

Cost: \$399

Chairs: Rosanne M. Kho, MD and Patrick Culligan, MD

Faculty: Catherine Matthews, MD, Anthony G. Visco, MD, Tiffany Jackson, MD and Bich-Van Tran, MD

OBJECTIVES

- Demonstrate safe patient positioning and port placement with techniques to obtain maximal exposure and visualization.
- Recognize correct tissue planes for entry into the cul de sac, and pre-sacral space.
- Illustrate techniques to optimize suturing and manage bleeding when encountered.
- Understand best practice techniques for mesh selection and management algorithms for mid-urethral slings.

AGENDA

7:45 am - 8:00 am	Welcome and Announcements/Course Overview
8:00 am - 8:30 am	Understanding Anatomy for Pelvic Organ Prolapse Surgery Rosanne M. Kho, MD
8:30 am - 9:00 am	Patient Positioning, Port Placement and Other Important Tips and Tricks Catherine Matthews, MD
9:00 am - 9:30 am	Mesh Selection: The Good, The Bad and The Ugly Anthony G. Visco, MD
9:30 am - 10:00 am	Sacrocolpopexy versus Sacrocervicopexy Patrick Culligan, MD
10:00 am - 10:15 am	Q&A: Faculty Panel
10:15 am - 10:30 am	Break
10:30 am - 11:45 am	Surgical Tutorial Video Festival - Faculty Panel
11:45 am - 12:45 pm	Lunch/Change to Scrubs for Hands-on Wet Lab
1:00 pm - 4:45 pm	Cadaveric Hands-on Wet Lab
4:45 pm - 5:00 pm	Wrap up/Evaluations/Adjourn

**Registration for pre-congress courses can be done through www.WRGCUS.com as part of the registration process for the WRGC IV Congress. The cost for a pre-congress course is additional to the cost of the congress.*

WRGC IV PRE-CONGRESS COURSE DESCRIPTION

PRE-CONGRESS 3: TRAINING, SIMULATION AND PROGRAM DEVELOPMENT IN ROBOTICS

Cost: \$250

Chairs: Eric L. Jenison, MD and John P. Lenihan, Jr., MD

Faculty: Jeff Berkley, PhD, Loredana Guisella, MS, and Ross Marchetta, MD, Michael Galloway, DO, Martin A. Martino, MD, Thomas Payne, MD

OBJECTIVES

- Review the advantages and disadvantages of the various robotic surgical simulators.
- Recognize the critical elements of credentialing and privileging as well as maintenance of privileges.
- Illustrate techniques to optimize resident, fellow, and peer to peer training in robotic surgery.
- Understand best practice algorithms for developing a robotics program.

AGENDA

7:45 am - 8:00 am	Welcome and Announcements/Course Overview	
8:00 am - 8:30 am	The Problem - Skill Degradation: The Enemy of Consistency Eric L. Jenison, MD	
8:30 am - 9:00 am	Understanding Credentialing, Privileging & the Role of Surgical Simulation John P. Lenihan, Jr., MD	
9:00 am - 9:30 am	Developing a Residency Training Curriculum: A Proposed Roadmap Michael Galloway, DO	
9:30 am - 9:45 am	Q&A: Faculty Panel	
9:45 am - 10:15 am	Break	
10:15 am - 10:45 am	Smart Phone Apps & Other Innovative Learning Tools Martin A. Martino, MD	
10:45 am - 11:15 am	The Genesis Project: A Model for Robotics Program Development & Success Thomas Payne, MD	
11:15 am - 11:30 am	Q&A: Faculty Panel	
11:30 am - 12:30 pm	Lunch	
12:45 pm - 4:45 pm	Surgical Simulation Hands-on Lab and Roundtable Discussions with Faculty & Industry	12:45 pm - 1:45 pm Robotic Surgical Simulation: Present and Future Jeff Berkley, PhD, Eric L. Jenison, MD & Martin A. Martino, MD
4:45 pm - 5:00 pm	Evaluations/Wrap up/Adjourn	1:45 pm - 2:45 pm Training Residents in Robotic Surgery Michael Galloway, DO, Loredana Guseila, BS, BME & Martin A. Martino, MD
		2:45 pm - 3:15 pm Break
		3:15 pm - 4:15 pm Robotic Operating Room Team Efficiency Ross Marchetta, MD & Thomas Payne, MD
		4:15 pm - 4:45 pm Maintenance of Robotic Certification John P. Lenihan, Jr., MD & Eric L. Jenison, MD
